

Sandos Caracol: Most Recommended Eco-Friendly Stay On Expedia

April 22, 2019, Playa del Carmen.- Sandos Hotels and Resorts is extremely pleased to announce that [Sandos Caracol Eco Resort](#) has been ranked first in the world as the most recommended eco-friendly stay by Expedia travellers, who go in search of experiences that favor the environment and reduce the ecological footprint.

Expedia, the largest online travel agency in the world, evaluated the comments of eight million "Eco-Travelers" and ranked Sandos Caracol the most recommended eco-friendly stay.

While Sandos Caracol leading the Top Ten ecological hotels in the world is an incredible accomplishment, an even more significant achievement is being recognized as the only ecological hotel in all of Latin America in the Top Ten.

Expedia also revealed the Top Ten Countries for their ecotourism, and Mexico was ranked second place. Sandos Hotels and Resorts does not doubt that Sandos Caracol helped put Mexico in such a high standing against other countries.

This recommendation is not only an incredible honor but, as a company, a massive sense of accomplishment. This mention, alongside [sustainable practices](#) and Rainforest Alliance and Travelife Gold Certifications, only solidifies Sandos Caracol's dedication and determination to continue making a difference in the hotel industry by providing exceptional service while at the same time reducing their ecological footprint.
