

## Gastronomic Upgrade in Sandos Caracol Eco Resort

**Playa del Carmen, October 17, 2022.-** Sandos Caracol Eco Resort has incorporated new dining options for its guests into its already extensive all-inclusive program to provide a wide variety for all tastes. Aware of the trends and requests of its clients, the resort has established a new vegan taco food truck called **"Santo Taco"**, which is now available every day between 2 and 8 pm in the main square of the resort. This makes it the perfect option for those looking to replenish energy between the many activities offered as part of the All Nature Experience. Another new, different, and full of traditional options is found in its new **Indian food menu**, specially designed for those who want to live a gastronomic experience as if they were in the eastern country but in Mexico.

Likewise, the resort continues to promote its unique ecological characteristics for a hotel of its kind by being immersed in the abundant flora and fauna of the Mayan jungle. Among its most outstanding activities include snorkeling in a crystal clear freshwater cenote, a tour through the jungle by bicycle with the possibility of having contact with the fauna and farm animals, or floating through the mangroves across a calm river. In addition, it has a huge water park with numerous slides, suitable for all ages.

On the other hand, it is necessary to highlight the night activities program and its outstanding shows in the theater, updated daily to provide a new experience to make each guest's vacation special. Current performances range from tributes to musical icons such as Shakira, Michael Jackson, and Lady Gaga to artistic presentations that highlight both the Mexican heritage and the Mayan culture.
